

Flexible Vinyl Strip Curtains

Improve your workflow with Vinyl Strip Curtains

If your warehouse needs protection from outside debris, or maintaining environment is in conflict with your productivity, American Door can install Vinyl Strip Curtains in your facility. Our PVC plastic strip doors provide a speedy, cost-effective solution for environmentally disruptive traffic. They're great for loading docks and warehouses, heavy forklift use areas, freezers, welding shops, clean rooms and computer assembly areas, conveyor openings, or any work area where debris can cause serious issues.

- >> Reduce Energy Costs
- >> Improve Employee Safety
- >> Prevent Contamination
- >> Complete Installation
- >> Indoor and Outdoor Applications

Configurations:

Standard or Temperature Resistant

Standard Formula PVC:

Good for indoor and outdoor, and temperature ranges from -10°F to 150°F. Standard strips are also safe from UV discoloration.

Available in a Variety of Widths:

4", 6", 8", 12", 16", 24", 36", 48"

Low-Temp Formula PVC:

Remains flexible in very cold temperatures. Can withstand -40°F, so they are great for freezers and USDA inspected sites. (Indoor Use Only)

Thicknesses Available:

.06, .08, .12, .16

Fire-resistant and Self-Extinguishing Registered with the California State Fire Marshall's Office.

Eight Formulas to choose from:

Smooth

Aesthetically smooth. Easy pass-through. For Locations where clarity is needed.

Dark Amber

Blocks light as a partial sight barrier. Great for welding locations.

**Scratch-Guard®
Ribbed**

Superior scratch resistance. Reduces static electricity. Great for loading docks and warehouses.

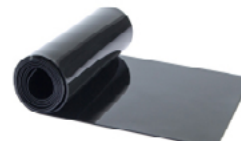

Aztec Orange

Partial sight barrier and light blocking. Also stands out for situational awareness. Great for caution areas.

**Armor-Seal
Ribbed**

For heavy traffic and forklift environments. Reduces abrasions and scratching. Has material longevity.

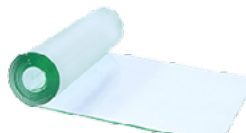

Opaque

Complete sight barrier. Great for conveyors. Not recommended for motorized traffic.

**Low-Temp
Reinforced**

Temperature varying environments where elongation and contraction occur. Remains flexible. Great for food areas.

Anti-Static

Reduce static electricity. Great for clean rooms, and computer assembly areas.
