

Cantilever Sliding Gate

Low-Maintenance Cantilever Sliding Gates

Better Security with More Usable Space

Commercial sliding gates can secure your property while allowing easy access for authorized personnel. We offer full installation for both fencing and sliding gates, and we hook up the power too. We install all of the required safety systems, and have many additional options as well.

Your sliding gate can be fully automated, with key card access or radio remote, and even be operated from a guard tower. We include standard safety systems such as a photo eye for detecting pedestrians and a reversing safety edge. For added security, your sliding gate can be set to close automatically after a short period of time, preventing unauthorized entries.

>> In-ground Loop Detectors Available for Sensing Vehicles.

>> 1 Phase and 3 Phase Power Options

>> Motorized Operation

>> Huge Variety of Profiles and Styles.

American Door's sliding gates are a great, low-maintenance way to create a secure access point. We have a variety of different styles from ornamental to wire fabric, all exhibiting strong, dependable performance. We also have industrial models for areas with extra security needs. If you have an area that needs securing, we have the fence, the gate, and the team to do complete installation.

Some Safety and Security Systems Options for Sliding Gates:

Photo Eye
 Detects people and vehicles passing the eye

Safety Edge
 Detects the gate closing on an object

Push Button Control
 Station to control the gate

Key Switch Control
 Restricted access control

In-Ground Loop
 Senses vehicles approaching

Timer
 Scheduled operation of the gate

Radio Remote
 Remotely operate the gate

Horn
 Alerts bystanders that the gate is in operation

Strobe Light
 Alerts bystanders that the gate is in operation

Key Card
 Electronic card access

Whatever sliding gate you choose, whether you need a full install from the ground up or a replacement for an old failing system, American Door is the right company to call. We have more than 50 years in the industry. We've been at it since 1969! Call the team who does it all, from sales and installation, to maintenance and 24 hour emergency service.
